Report on the administration of Local Funds for the year 1876-77

236 Spl file 758

Passing orders
on the Statements
of Receipts and
Disbursements
of the Local Funds
for 1876/77

Memo:

In paras XX & XXI of the Chief Commissioner's Notification No. 110 of the 4th July/74, it is laid down that a concise reports of the General Administration of Local Fund in each District, with statements of the Year's Receipts and Disbursements should be annually submitted to this office, thro' the Commissioners of Divisions.

2 The Commissioners of Divisions have *submitted the accounts of certain Districts for 1876-77, and those of Cuttack and Patna have not, as yet, been received in this office, although several reminders have been sent.

3 Under para 18 Sec: VI Chapter XX of the Public Works Code, the Examiner P. W. A submitted the Annual Appropriation and outlay accounts of Local Funds for

The concise report required has not been sent in yet

* Docket No. 881 dt 9th March/78 from the Commr. Cuttack Div.
— do — No. 664/202 dt 1st March/78 from Commr. Allahabad Div.
— do — No. 503/116 & 1163/235 dt 9th August/77 & 24th February/78 respectively from the Commissioner of the Patna Division.

for 1876-77, which were reviewed* in this Office, and submitted to the Government of India. The Financial Commissioners order reviewing the accounts was also communicated to the Commissioners and Deputy Commissioners &c.—

4 The accounts of the Districts already received do not tally with those of the Examiner as shown in the accompanying comparative statement. I beg to suggest that the accounts be referred to Examiner P.W.A this & the Deputy Accountant General for check, and two copies of the comparative statement forwarded to Commissioners & Divisions for explanation.

5 It would be well to direct that in future, the District accounts should be transmitted to this Office, after being duly checked by the D/Accts General & Examiner P.W.A together with the appropriation and outlay

Memo:

MYSORE COMMISSION.

4

Chief Commissioner's Notification No. 110 of 74 dt. July 1874, Prescribing Rules for the Establishment of Local Committees for the Administration of Local Funds in Mysore.

———"———

In para 20 of the above rules it is stated that the Amildar should submit to the President of District Committee on or about the 1st week in April of each year a detailed report of the Local Fund Administration of his Taluk, explaining what

what was done during
the year under review
or what may be required
in future.

5

2. By rule 21. the
President is required
to compile a concise
report from the Taluk
reports, inclusive a
statement of receipts
and disbursements, and
after laying it for
discussion before a
general meeting of
the Committee to be
~~held~~ convened before the end
of April, submit the
same to the Chief
Commissioner.

3. With his letter
No. $\frac{337}{129}$ of 28th August
1876 the Commr. of

6

of Ashtagram Division submits a Statement of Receipts & Expenditure for the Ashtagram District for the last year. No such report as that required by the rules above quoted has been forwarded.

The Statement may be returned to be re-submitted with a report.

4. The attention of the other Commrs may be drawn to the rules and requested to expedite the submission of their reports. It may be added that in future, these reports should be despatched so as to reach this Office

Should Suppl. Statement I shall call attention to the rules on this subject. The Statement may be examined & dispose of in the present case.

The reports of the work done in this part of the year has been rec'd. I shall call for these NPL

Office by the 20th
of May in each year.

R. P. Thumbood

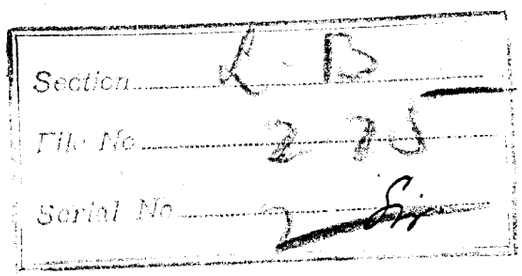
2 9

To

The Commissioner
Salsar Division.



I have the honor in accordance with Rule XXI of the Chief Commrs Notification of the 4th July 1874 to submit the general Report on the Administration of Local Funds for 1875-76 after discussion at a meeting held on the 26th April 1876 accompanied by Statements shewing the Receipts and Expenditure under various heads.

The Schedul below appended, shows the realizations from Local Cess both for the Year 1874/75 and 1875/76

Talookwar

Talukhs	Total Receipts from Local sources including Surcharges on Land Revenue Price of Cattle Trespass &c. debitable to Local Funds for 1874-75.	Receipts for 1875-76. Survey Collection	Sale and hire of Cattle Trespass	Contribution & other miscellaneous Receipts.	Total	Balance on 1st April 1876.	Grand Total
Chitaldroog	6534.2.7	6622.1.11	1110.5.10	1134.7734.5	13099.15.11½	20,834.5	
Davangere	11517.13.3	7740.8	179 14 9 964.10.5	18.3	8903.4.2	27,762.4.9	36,665.8
Harikeppa	3879.6.3	3320.11.3	673.5.5	3994	8 4690.12.2	8684.12	
Doderi	7790.12.10	6888.1.11	749.4	14	2.7651.6.1	13,232.12.3	20,884.2
Hiriyur	3447	6.3787.1	206.7.2	20.5	4013.13.2	4,259.4.4½	8253.1
Bondihal	4209.1.1	4043.6	448.7.11	8	4492.5.11	2580.1.10	7072.7
Hosdurga	4508.1.2	3855.9.6	396.12.8	6	6.4252.12.8	7975.9.2	12,228.5
Pavagada	6908.10.1	4849.15.2	176.13.7		5026.12.9	11,463.12.6	16,490.9
Distt Treasury				2000	2000		2000
Total	48,645.9.4	41,107.6.9	179 14 9 4726.3	2055.4	48,068.12.6	85,044.9	133,113.6

When the Collections from all Sources debitable wholly to Local Funds including Fines for Cattle Trespass &c. for 1874/75 is compared with that of 1875/76 the latter is less by 496.3.3 and it is stated by Amildars that this decrease is owing to remission of Road Cess Revenue in whole or in part during

the year. The increase in the number of Khots for collection and the abolition of Layer duties on Petty goods, Pepper &c. by the Chief Commissr. But the arrears of those Talooks who had heavy out-Standings of the previous year uncollected, at once adopted Coercive measures and cleared most of the balances.

Expenditure

The Budget was Sanctioned by the Chief Commissioner for Rs 83,000 against which an Expenditure of Rs 36,863-3-2 was incurred leaving a balance of Rs 46,140-12-10 unExpended.

The following Table gives the distribution of funds with the outlay incurred under the main head of Service.

Heads of Service	Grant	Outlay	Difference more	Difference less
Original	36,565	11646-2-2	-	24918-13-10
Repairs	30,282	14875-8-8	-	15406-7-4
Establishment	15,157	9688-10-4	-	5468-5-8
Tools & Plant.	1,000	652-14--	-	347-2--
Total.	83,004	36,863-3-2	-	46,140-12-10

The total amount spent in Each Taluk under each head is given below-

Taluks	Original	Repairs	Establishment	Tools & Plant	Total
Chitaldroog	4869 14 8	2140 4 4	1094 6 -	75 5 9	8179 14 9
Davangere	113 8 5	515 12 6	1313 8 10	100 5 9	2043 3 6
Kankanhalli	68 5 -	2298 5 11	1039 7 6	75 5 9	3481 8 2
Dodderi	551 - 1	1329 10 6	1429 7 2	75 5 9	3385 7 6
Hiriyur	1552 14 7	666 2 -	1233 12 3	75 5 9	3528 27
Bondihal	1058 7 6	3624 12 6	1228 13 3	75 5 9	5987 7 -
Hoodihalli	3232 1 6	2400 8 11	1310 8 11	100 5 9	7043 9 1
Paragondanahalli	199 14 5	1900 - -	1038 10 5	75 5 9	3213 14 7
Total	11,646 2 2	14,875 8 8	9688 10 4	652 14 -	36,863 3 2

The heavy balance under original Repairs &c. are mainly due to the following circumstances

Original

Budlepatte to the Hoodihalli Anagodu Road-

This work was commenced at a late period, and the Sum of Rs 4000 provided for in the Sanctioned Budget was not fully Spent- owing to this, and the refusal of the Job work Contractors to accept the Jaleeb amount at the rate

part of ...-1-9 determined to be

given them —

Bridle path to the Hanihan Harpenhalli Road.

This work was not started in time owing to the Assistant Engineer, Surveyor, and others having their hands full of other work and in other quarters

Foreseeing that the Sum of Rs 3000 provided for in the Same ironed Budget for this work could not be utilized, a Sum of Rs 1000 was appropriated in Sinking wells &c by transfer to Misc: Public Improvement as Relief work Rs -

Improving Chelakere and Down Roads

The question of improvement to these roads was attended to, Soon after the receipt of the Sanctioned Budget Estt in August 1875, and Estimate and plans submitted for Sanction

These works were given

out on Contract to two indi-
viduals neither of whom have
Succeeded in Shewing Such
fair progress as was Expected.
But they are not Entirely to
blame, as the Season has been
most un favorable, and they
have Suffered Considerable
difficulties in the matter
of labor, as those Engaged
by them on the works whenever
an outbreak of Cholera ap
peared in the neighbourhood
and the Juncels of work done
by them were not made as
Expeditiously as they Should
have been.

Construction of 3 arched Bridge
On Pavagada Bellary Road.

This work was after Con
sideration, Suspended and
the Amount appropriated for
works more useful and impor
tant in their nature, ie, in
Starting Simple and petty
works to afford relief to

to distressed people.

Under the head Part-II A Original a sum of Rs 1750 was provided as Reserve in the Budget for unforeseen work. a larger portion of which was at first transferred to Part, B. original, for Construction Moosafunkhanas &c. which however was subsequently modified, and a portion reappropriated in Constructing and repairing wells under the head Miscellaneous Public Improvement to afford relief to persons in want, owing to the failure of rain. These works (Relief) having been started since December as occasion Demanded, and more widely in the latter part of the year it has been found quite impossible to spread the full amount in so short a time.

Minor works were also

also sanctioned to an Extent
of Rs 978— before the ques
tion of relief works was talked
of. These works together with
Relief works were started
to afford aid to poor Ryots
and others, but I regret to
report that the results have
been most unsatisfactory
The amildars assign several
Causes the chief reasons being
1 The prevalence of Cholera
in Consequence of which it was
almost impossible to procure
laborers, from my own
personal observations I
know this to have been a fact-
Cholera has been very rife
since February last, and not
only Local Fund Works but irri
-gation works have to a
great Extent been hindered-
2d - The late period when
many works were sanctioned
is another cause assigned.
3d. The Large number of works

works of one sort and another scattered throughout the District.

In the matter of works especially sanctioned as "Relief Works" I may add, that although the object of these works being opened, was for the bona fide purpose of assisting poor agriculturists and very often at the urgent request of the people themselves, and although so large a sum as Rupees 22,776 were actually sanctioned for wells and small Tanks and Rupees 16,935 were appropriated, yet, so great has been the apathy or indifference, or, both of the people that only a very small portion has been spent viz Rs. 2718 being only about 1/6th. of the sum appropriated Construction of a Bungalow on the Jogi Mutti Hill.

The Construction of a Bungalow on the Jogi Mutti Hill near Chitaldroog was for some time under Consideration

and in the year 1874-75 an Estimate and a plan having been submitted, was sanctioned for Rs 4500 from "Local Funds General". The work was given out on contract and will shortly be completed.

A sum of Rs 14,804 was provided for in the Sanctioned Budget for the Annual Maintenance of Roads of which Rs. 12648-12-3 was spent leaving a balance of Rs 2155-3-9 unexpended at the close of the year. The Cause of which is, that some time before the receipt of the Sanctioned Budget, the repairs were begun with a limited number of Coolies reserving a certain Sum for unforeseen Repairs or improvements that might be required, and the number of the Gangs was not increased till late in February 1876. The failure

of rain prevented the spreading and consolidating the materials collected, and in order to afford means of livelihood to men in want, more hands were employed in collecting materials which has been stacked on the road side and will be spread and consolidated as soon as the rains commence, a practice observed by the P. W. Department.

A sum of Rs 1510 was also transferred from the head Reserve to that of Dist. Public Improvement and appropriated in Sinking wells &c. in shape of Relief works.

almost all the 3rd class Bungalows in this District were supplied with furnitures and other articles

Rs 1690 was sanctioned in the budget by the Chief Commissr. under Repairs Part III B both for this and for the repairs of Bungalows

Bungalows and Musafirkha
-nas

A Sum of Rs 9688-10-4 was Establishment
Spent out of the Budget grant
of Rs 15157 leaving a balance
of Rs 5468-5-8 - Rs 101-9-9 was spent
towards the new Dispensary
out of Rs 2000 Sanctioned
in the Budget to meet the
charges.

A large number of Tools Tools and Plant
was indented for, obtained
and distributed to Talookas,
the amount spent under the
head was Rs 653 only, against
Rs 1,000 Sanctioned in the bud
get, and this includes also a por
tion of the conveying charges.

The Chief Commissioner on
hearing of the distressed state
of the people in this District
was pleased to Sanction the
grant of Rs 10000 from Irriga
tion Cess to Local Funds

to

to carry out Relief Works. Of which a sum of Rs 4,000 and that available from the Budget Grant under various heads, was transferred to the head Misc Public Improvements, by making the necessary re-appropriation amounting in the aggregate to Rs 22,776 which was utilized towards the construction and repairs of wells, Kattays, &c. the total amount appropriated being Rs 16,955 = Rs 13,501 was Sanctioned to the Chittaldrug Taluq alone, for works of the nature above, mentioned Viz. 38 in number; and with the Exception of the Kanakapa Pah Bondihal, and Lavanda Talooks where no work from Distt Funds was Sanctioned the Amildars Submitting no Estimates, the remaining Talooks received Sanction to the Extent noted in the margin.

	Sanction.	Outlay
Chitaldrug.	13501 —	428
Davangere	5268 —	516
Doderi	693 —	268
Hiriyur	1207 —	62
Hoodumpa.	2107 —	444
	22,776 —	2718

the Expenditure incurred by
Each Talook being ——— also
added.

In the latter part of the year
when Famine made its appear
ance, Estimates were called for
from Amildars of the Talooks
where the people suffered from
want, accompanied by a report
Containing particulars of crops
state of weather, food grains
and the number of men of agri
cultural class that would
be benifitted both in the Vil
lage in which the work was
proposed to be Executed as
also in surrounding Villages.
Most Estimates falling within
the powers of the Deputy Com
missioner sanction, were Sanc
tioned the usual Notifications
of Sanction being sent to the
Secretary through the Famine
Nagar Division, and orders is
sued to the Amildars to Commence
both the work, and others sent
to the Famine Nagar Division

for Sanction.

As per instructions of the Commissioner Nagar Dista on previous suggestions made from this office a new line from Chitaldroog to Davangada direct was traced by the Local Fund asstt Engineer to afford relief and the necessary sketch and report shewing the nature of the country and the proposed line are under preparation in the asstt Engineers office. The use and benefit of this new line, Connecting Davangada with Chitaldroog, has been explained in Extenso by the Committee in their Proceedings held on the 8th of October 1874 and there is no question of its necessity, and I am of opinion should be speedily opened.

16

Another line from Imam Cumari to Hosdurga Connecting Hiriyur with the latter, was, under similar circumstances, as stated above

faced by the Local Fund Assistant Engineer and the necessary sketch will be port Hd submitted for approval. I beg to refer to the Committee's Proceedings alluded to in the above as regards the importance &c. of the line

a Dispensary at Dawanfore was opened on the 8th of January 1876 by Veerasawmy Pillay, the Hospital assistant attached to the Deputy Comm.r Establishment on his being relieved, in the Building known by the name of Ramaiah Chuttrum now in a very dilapidated Condition, but which it was found necessary to remove to a house selected by the Amildar. The Establishment sanctioned by the Chief Commissioner has been entertained and the institution is much appreciated and found to be of great assistance

assistance both to the peo-
ple at Davangere and that
of the surrounding villages
The Dressers' services were
also availed of in giving medical
aid to those attacked by Chole-
ra in the Kankupoja Taluk
the Dispensary during that
period being temporarily closed.

18

Future Requirements— Under this head I beg to
sum up the suggestions received
from the Amildars—
All note the difficulty in
getting Ryots to work on Relief
works, some stating that
Ryots as a rule object to
works of the nature of sink-
ing wells and repairing Kuttays
or small Tanks, as they are
unaccustomed to the work
and suggesting the Construction
of Roads as being work
which they would take up
The Amildar of Dodderi urges
the opening of the road
from Chalakere to Davangd.

as a means of affording
relief

The Amildar of Pavagada
suggests the necessity of bridging
the Pavagada Bellary Road
and especially over the Pala
vulli Tank, but this is a
work that requires careful
professional consideration
and it is one of the schemes
that will be taken up
when it can be conveniently
attended to.

The Kankuppa Amildar.
suggests the necessity for
improving and putting in
thorough repair the Chital
drug Sogani Road, but
this is a work that has lately
been sanctioned and will
be very shortly taken in hand.

The Amildar of Davangere
strongly suggests the opening
of a line of road from Hari
har to Tavanbane Kattay

a village a mile beyond
the Toongabendra River in
the Ranibennor Taluk
of the Dharwar Collectorate
where a large market is held
and heavy traffic is carried
on between the two places
The length of road on the
Mysore side would be about
11 miles, and I am of opinion
that the matter is worthy
of consideration and if a
bridge were opened shortly
would tend to afford aid
to that portion of the
Taluk

20

Concluding Remarks— In submitting this
Report I fear objection will
be taken to the small amount
of Expenditure as compared
with works Sanctioned
but I trust the very unfa-
vourable season, as also
the Cholera Epidemic
which has severely tried
the District, will be accepted

as two principal Causes
I have further to note that
to carry out works efficiently
throughout the District and
in order to have works
properly supervised and
checked, a revision in
the existing Establishment
of Surveyors and Masters
is greatly needed, and I
purpose shortly to Sub
mit proposals on the Sub
-ject for consideration.

In Conclusion I beg to
acknowledge the services
of Mr. A S Nagarkar
who was appointed Local
Fund assistant Engineer
of the District on the
3rd of June 1875. This Officer
has rendered me much pro
fessional assistance.

21

has appointed Local Fund
Clerk in January last and
has worked well.

Mr Carey the District Head
Surveyor is a man of Expe-
-rience and good professional
attainments, and has per-
-formed his duties to the
Satisfaction of the Asst
Engineer.

I have the honor to be
Sir
Your most obed Servant.

Deputy Comm.

Shimoga District

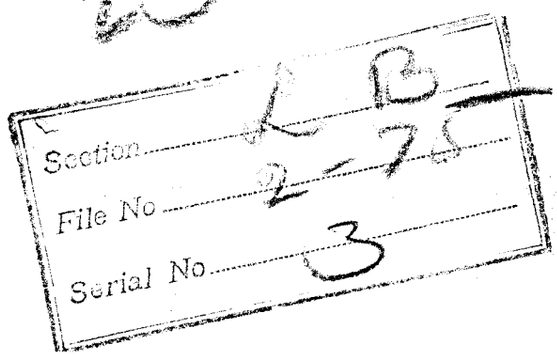
To, The Commissioner
Nagar Division

Dated 20
Deesptd 21 } June
Received

Rec: 6

No. 341

Submits the Shimoga
Administration Report
of the District Board
Committee.



Shimoga District
Deputy Comrs' Office
Shimoga 20 June 1876

No 341

To
The Commissioner
Nagar Division

Sir,

I have the honor to submit the first annual Administration Report of the District Fund Committee of Shimoga.

2 The year 1875-76 was the first during which the Local Funds of the District were managed throughout by the Committee, & the administration of the funds during the year under review was for the first time audited by a Local Fund Engineer.

3. The season has not been altogether favorable, the North East monsoon on the seasonable fall of which so much depends for surface works of roads fell very lightly and in places almost quite failed, Later on in the season the prevalence of cholera made the procuring of labour difficult, notwithstanding these drawbacks however the outturn of work contrasts very favourably with what has

has been done in the District in former years.

4 The estimated Receipts for the year was Rs 59080/- the Expenditure Rs 104.855/- but the receipts credited have amounted to Rs 64.283/- while the expenditure incurred has been Rs 93337.11.9

5 The actual expenditure thus fell short of that Estimated for in the budget by Rs 11517.4.3 of this more than Rs 3500 represents Savings on Establishment

6. I will now proceed to detail the principal works on which money has been laid out during the year.

7. This important line of inter-communication between the Chilaw and Shinaga Districts has never been satisfactorily completed. A project for putting it in thorough order having been got up the Estimate was sanctioned during the year under review by the Chief Comr. for Rs 52260/- and the Budget allotment for the year was Rs 4000/ To this was added by a re appropriation

Constructing drains and improving Benkipur Dunni road

re-appropriation from the Dandavatti Bridge-work allotment Rs 992. The whole of the Original allotment of Rs 4000 was satisfactorily expended under the supervision of the L. F. Engineer while of the latter sum the Executive Engineer laid out Rs 645/-

8.

Road from Shimoga to Nyamti.

This road starting from Shimoga joins the Agnoor Nyamti road at Sowlunga It is intended to continue it to Karo-gopa where it joins an existing road leading to Kadaupur. This will open up a new and direct line of traffic north from Shimoga. The Estimate for the Road is not yet sanctioned but it is expected that it will very soon be passed. At an expenditure of Rs 4000 the line has been opened throughout the 5 miles from Sowlunga to Shimoga.

9.

Sirialcope Hire-Keroor Road.

This line of road has been brought to completion and the full amount of the budget Estimate has been spent.

The

The L. E. Engineer however reports that several small tunnels are wanted on this road and a further small appropriation may be necessary.

10 This is a part of the through line from Siddapur to Honali. The Estimate was sanctioned during the previous year but not much work had been done on it, the road has been formed throughout and satisfactorily completed during the year under review with the exception of turfing and tamping; works which necessarily had to stand over until the setting in of the monsoon. The work carried out at an expenditure of 12900/- rupees, included 11 tunnels and an arched bridge and though the soil throughout is extremely unfavourable for masonry, the several works have been very satisfactorily Concluded without exceeding the Estimate

Shikarpur Shiralcope road.

11. That part of the same line of traffic

traffic running for the first 2 miles towards

Honali Shikarpur road.

Shikarpur from where the line leaves the Honali Hanti road has been satisfactorily completed the outlay during the past year being Rs 1261. For the most part the road here passes along high and hard ground presenting no difficulty in making and it will be easily maintained.

28

12

Improving the main line between Shimoga & Harihar to the junction of the Hanti & Hosur lines.

From the junction of the above road with the Hanti road to the main line from Shimoga to Harihar, runs the 2½ miles of road known as marginally noted, Rs 4385 have been spent on finishing this piece of road, and a very neat and well finished road has been turned out.

13, Following the line towards Shiraleope from the point where the Honali Shikarpur road work stops there is an unfinished gap of some miles to Hosur along which the road is.

is traced and roughly formed but the Nallahs are unbridged.

14. From Hosur to Shikarpur the road has been improved at an estimated cost of Rs 4597. The work during the past year was brought to completion and a saving of rupees 199 is shewn on the Estimate.

Improving Shikarpur Hosoor Road.

15. That part of the line from Shikarpur to Shiraleope has already been described. From Shiraleope on to Sorab the road is also being improved the outlay on this part fell short of what was provided by over 700 Rs the work is therefore unfinished and an appro-priation for the current year will be required. The shortcoming in this road is due to an outbreak of cholera in the Taluq during the prevalence of which no labour could be obtained.

Roads between Sorab and Shiraleope.

16. The last part of this line is known as the Sorab Siddapur road: this continues the line to Siddapur in Canara the last 3 miles running in

Sorab Siddapur Road.

District with the exception of the crossing of the river Warda, the best means of effecting which not having been definitely settled yet, this road has been completed. The short outlay of Rs 864. less than the provision was owing to this.

17. There is now a good serviceable well made road from Seddapoor to Hinglee available for traffic at any time of the year except when the Warda and Chordi rivers are in high floud. The only other stream intersected which is likely to impede traffic is the Dandavatti at Sorab which is now being bridged. A little over 27000 rupees was spent during the year on the six parts into which this line is divided.

18 The Amvatti Gondi road an unfinished work of the last year has been completed. The apparent lapse on this road was due to the years appropriation being greater than

than the unexpended balance of the Estimate. The estimated Expenditure on the road has been fully laid out.

19. The Bridge over the Dandavatti Nalla at Sorab already mentioned was begun by the Executive Engineer but handed over during the year to be executed by Civil Agency. Several circumstances, notably the death of the Contractor who had taken the work, combined to delay matters and the outlay on this work fell short of the appropriation by nearly Rs 1500/. The foundations have been filled in and the work which is stopped for the monsoon will be recommenced as soon as the stream is low enough.

Dandavatti Brudge.

20. The only other original road work of importance executed during the year was the making of a couple of roads leading to the land beneath the Saletkere tank, from the villages to the East. A means of communication with this land has long been greatly needed

needed and these roads are not only a boon to the ryots already cultivating beneath the tank but will, it is confidently anticipated, lead to considerable extension of cultivation. The ryots themselves have continued the road across the valley. Rs 4544 were expended but the outlay is not shewn in the accounts of the year as appropriation was not made for the work and it will be shewn in the accounts of the ensuing year.

21. Of the works carried out by P.W.D. agency the building of the Kambli Koppa bridge on the road from Kalurkatte to Laxmipur was commenced and out of an appropriation of Rs 3000 an expenditure of Rs 2798 was made.

22. Of Buildings the Chief works have been the completion of the Shirali Kop Musafarkana and commencement of that at Talipa both under Civil agency; the building of Kalurkatte 3d Class Travellers Bungalow and improvements

of

of Malay Bungalow by D.P.W. agency.
The outlay during the year was 3565. and
1120 rupees respectively on the two Mu-
-saparkanas and Rs 3315 and 2276 on
the Bungalows.

23. Under the head of Miscellaneous
Public Improvements seven works for the
supply and storage of drinking water
have been undertaken with one exception
these have been completed & the expenditure
incurred is Rs 2130. A grant of Rs 5000
for special works of this nature to be
undertaken as Relief Works was made by
the Chief Commissioner in No. 635 of the 21 March 1876
but none of this was utilized during the
year. There was not time to do so.

24. Road Repairs have been carried
out on the several roads as provided
in the Budget except in the case of the
Benvalli Muguruthi road on which nothing
was spent. This is only a trace and it
has not been thought prudent to lay
out money on its maintenance until
it is improved, the more especially as

it is not quite settled whether it ever is to be improved or abandoned

25. Only Rs 50 of the revenue grant of Rs 800 under this head were required during the year, this and the unexpended provision for the above mentioned road are almost the only lapses.

26 The Original Grant of 570 for repairs of 3? Class Bungalows and Musafarkanas was raised by re-appropriation to Rs 3570. Of this Rs 661/- was allotted for repairs to be executed by Civil Officers but Rs 321 of this was not required and the balance was spent. An allotment of Rs 2153 was given to the Executive Engineer for the repair of four bungalows on the Angumbi road and the repairs were executed at a cost of Rs 2727.

27. Attached to this Report are Statements of Receipts and Disbursements in the form required by the Chief Comm. together with lists of works Original

and

and Repairs.

28. In some works Expenditure has exceeded the allotment and in some cases the money allotted apparently exceeds that provided a list of these is attached with explanations and proposals for adjustment.

29 A list of works unfinished in which appropriation other than that entered in the proposed budget for 1876-77 will be required is also appended.

I have the honor to be

Out of 827 Cases treated 296 were from Cuttack and 531 from the neighbouring Villages and Jaleys. 682 attended in person and 145 were represented by their friends or relatives; One wounded Case from a Tiger and another from Tetanus proved fatal the average daily attendance was 1642 The total Cost for the dispensary was

Curative Medicines & Instruments	1192-12-
Country Medicines	1-3-2,
Furnitures	257--
Assistant Assistants pay	360--
——do—— travelling Allowance from Bangalow	30
Servants pay	63-14-11
Contingencies	6-4-5,
Total Rupees 1904-2-7	

The attendance of the patients are not regular on account of distance they have to travel, and for want of accomodation for them to remain for some time for treatment. I have provided this want by adding a waiting room in the plan I submitted to the Khoppa Division Executive Engineer which has been approved of by the Civil Surgeon of your division if this room is sanctioned and built it will be of great benefit to the poorer Classes who Come from distance for treatment.

In Conclusion I beg respectfully to state that the Ryots and other inhabitants of the Jaley have Commenced to find out the benefit of the Cuttack

English Medicines and to seek for aid for all cases at the Dispensary- I beg to append an extract from the Visiters book kept at the Dispensary Hospital Assistant Lazarus is I understand popular and deservedly so I should think and it is to be regretted that his sphere of usefulness is not a more extensive one than is afforded by the Villages of Hariharpur and the surrounding hamlets- Signed T. J. McGann. Civil Surgeon Nagar Division- 10th March 1876.

I beg to remain

Sir

Your most obedient Servant

T. Lazarus

Annual Medical Report

of the

Harlem Dispensary

and

St. Lazarus

Medical Assistant

Report on the administration of the District Funds in the Nasik District during the year 1875/76.

Meetings of the Committee held.

Agreeably to the Rules for the establishment of Local Fund Committees Paras 9 & 21, two meetings one in October and the other in the following April shd be held. To these two more were added by the Chief Comrs Proceedings No 25/15/62 of 23rd June 1875, viz one in January and the other in June. Of these, two meetings were held one in October 1875 & the other in Jan 1876, The meeting for June could not be held owing to the receipt of the proceedings under adverteence after the date prescribed, so that the 2nd or January's meeting alone could be held. No meeting could be held

in April as that month was
marked by the prevalence of
Cholera at Chikmagalur.

2. The statement appended — Cash balance.
hereto exhibits the actual balance
of the District Fund of each
Taluk on the 31st March/75,
obtained by a rateable division
of the total of the whole District
given in the statement attached
to the Dist Fund Budget in
accordance with the instructions
of the Commissioner Conveyed
in para 1 of his Circular No
251 of/17th August/74, as
well as the receipts of the year viz.

3 Out of the 7 works sanctioned
in the Budget under Part II of
Communications - 2 viz
the Construction of Culverts
on the Bellary & Tekkere Adjoin
Inam Road, sanctioned by the
Chief Commissioner's Letter No

1 Lechmere Manchester Strand - Construction of Channels on the Chittagong Sanyasi Road -
2 Sripur Begumbulia road
3 Nalua Balakhonna Road
4 Opening out the line from Hathazari to Nalua -
5 Baluas Sanyasi Road -

the address of the Commissioner) were transferred to the Revenue Department for Execution. These works were given out on Contract, on the recommendation of the Eye Engineer Madras Dn. The Contractor has only Collected materials. The sum of Rs 2000 appropriated in the Budget for the year has not been expended & has therefore lapsed. The remaining 5 works named in the margin are being carried out by the D.P.W. a Copy of the progress report kindly sent by Mr. Groves on local fund roads Carried out by him during the year accompanies this report. I visited nearly all the roads & beheld the gratifying sight of string of Carts easily passing over ravines that hitherto defied the powers of Pack bullocks & foot passengers

in april as that month was

P Venkata Row

Deputy Commissioner

Chikmagalur
7th June/76

Annual Report of Progress made on Local Fund Roads in the Imlnad of Ellore Dist during the year 1875/76.

51

Original works.

Irrigery Becarbulla Road.

	Rupees
Estimate —	26021
Expenditure 74/75 —	7493
Allotment 75/76 —	3000
Expenditure —	3690

The road way has been cut out in the rough to formation level 12 ft wide upto the 1st mile & 18 ft wide to 4th mile in the Irrigery limits. & a portion within Government limits at Hookly was also formed & Check drains dug the whole of the earth work & clearing & Embankings are so far Completed as to render the road trafficable throughout, from Irrigery to junction of Tirikere Angoondi road. Seven rough stone Tunnels were Completed & materials Collected for 10 other Tunnels & Revetments.

The requisite quantity of gravel is all collected, while materials for the three Kucha masonry Bridges at Hookly, Heggerdoy, & Kirkodi & mile & furlong stones are also being Collected

Estimate —	14180
Expenditure 74/75 —	3240

Tulsee Bulchoumoor Road

Chikmagalur Yedehulle road -

Estimate	9503-
Expenditure 74/75	75-
Allotment 75/76	2000
Expenditure do	3195

During the year, 6½ miles of this road were fully traced & settled, 3 miles trial traced, Tie points laid out for 6 miles and the rest reconnoitred; all reckoning from the Chikmagalur end, about 6½ miles were opened out in the rough, but require a great deal of work in cuttings, embankments, removing rocks & building tunnels, to complete it for traffic. During the latter part of the year, this work was handed over to the Mo. Agency for Construction

Balahonnur Yedehulli road -

	Rs.
Estimate	2768
Allotment 75/76	1000
Expenditure do	1681

This Estimate was sanctioned after the Budget, & provided for opening out to 14 ft. wide, the first section of 8 miles, the total distance being 22 miles of which, however 6 miles near Yedehulle are available for Carts. Work was commenced in January, & the first mile was opened out by Departmental agency, & 2½ miles beyond by Contract & only a few tunnels are required to complete this, (the most difficult portion of the line) for traffic.

Kingery Kalabile Road -

Estimate	2458
Allotment	1254
Expenditure	1533

This Estimate was also sanctioned after the Budget, as a 14 ft. Road. Work

(Excepting Tunnels) of the portions of 4 miles & 7 miles in the respective limits. Progress was good, considering the heavy nature of the work.

Nursery Ring Road.

P/6

55

This Estimate too, for a 14 ft. road was sanctioned after the Budget & provided for opening out difficult portions in Government limits, the rest to be opened out by Ryots & the Drivers Contract. Works progressed poorly, but could not be fully Completed owing to the greater urgency of work on other Estimate, which, & other with this one, were not sanctioned till late in the year.

Kulsa Nursery Road.

	Rs
Estimate ———	20048
Expenditure 74/75 —	9181
Allotment 75/76 —	
Expenditure do —	2570

The only work Executed during the year, was the Construction of the Kellagoor Arched Bridge of 25 ft. span, & the hasinky Inspection hut. as per Estimate, & the Clearance of Irrigation Channels (which had been filled during the Construction of the road & Blasting between Jowly & Kellagoor both Contingent Expenses.

All work on this road was Completed

have still to complete, gratuitously, earth work in approaches, embanking and hand railing, required in connection with the Kallagoor Bridge. The road has been perfectly practicable for Carts throughout, during fair weather, and of the greatest use to the Country.

The appended abstract shows the details of Booked outlay & expenditure against the year's allotment for Imbrad Local Fund Road work.

Allotments had to be revised late in the year in consequence of necessity for provision for estimates, not originally entered in the Budget

as ~~[illegible]~~ works progressed. The utmost efforts were made to utilise the aggregate allotments of Rs 20047 and the balance unspent on the whole Rs 2438—was due to Causes noted in Connection with the Kulsa Balakonnoor Road which traverses most unhealthy tract, where it is very difficult to anticipate progress of operations with Certainty.

Repairs—

The appended statement shows Expenditure as Compared with allotments

All the roads noted, were

losses occured, Credit should be given for Savings on the original Estimate, e.g. one mainly to the monsoon rains and their effects on road surface having been below the average.

General Remarks

The District Surveyor Mr. Bastian, performed his duties in connection with Inclined roads in Hobbs very creditably during the year, & acting & Temporary Maistries Venkatsawmy Conaru sawmy Pillay & Dassappa, all worked very well at their respective tasks - The death of Venkataramanian Temporary Maistry of Vaidaru is to be regretted, as he was very useful & promised to be a good Maistry.

Mr. Overseer Scanlon, Sub Overseer, Chetty Maistry, Sub Surveyor, Murugasawmy Pillay, & Lyman Maistry, also rendered good assistance in prosecuting Local & road work in the neighbourhood & other more immediate work: the Balchonnoor Buggoonpeeratta Imperial Road.

efforts to assist Inland works - The
Amildars of Kobpa & Lukmalli both
gave good promise, but matters
were not sufficiently advanced
in their Talukas to award them similar
praise, as which they will no doubt
be entitled in the next annual report.

Mr. Ganesh & Co proprietors
of Wattaykan Coffee estate, &
the Patails & Gyots of Sidwalli, &
Arikan & Coomi, all rendered
substantial assistance,
& by giving up Coffee land, gratuitously,
towards the Baloor Kaginadi road, the
only work fully Completed during the year.
Several others have assisted in a
similar way towards other roads,
of which due mention will be made
on their Completion. Mr. R. G. Allardice
of Baloor rendered assistance towards
the general advance of road work
by undertaking portions of work
on Contract, while Chennappa Gowda
supplemented previous operations
by opening out 10 miles more of
road also on Contract.

The year's operations may
on the whole be Considered as

which being reached by a net work of roads, almost all Completed, access ~~ing~~ing 5·3 miles, requires nothing more beyond small branches to villages, which the Kyots themselves will make & a short road of 5 miles from Kulsa to Seremsay the head of the Jelucurpaut & foot of bridle road ascend to the Hoodiencook.

This fortunate state of matters in Kulsa & Malebungay will enable attention to be concentrated in Lukmulli & Kobba in which Talukes also, a good start has already been made.

The years work may be summed up as follows.

Mile — ———

30 Of trace reconnoitred —

6 —"— tie points fixed

3 —"— trial traced.

40 —"— definitely traced

25·½ —"— Partly opened out into Bridle road

15 —"— fully —"—

5·0 —"— Required —"—
